LIST OF TABLES

Table 2: List of licensed cleaning companies as of September 2013.....	8
Table 3: List of licensed companies in solid waste collection and transportation as of September 2013	8

SUMMARY

In summary, this report is composed of Water and Sanitation sector and the period under review is from June to September 2013. Improved drinking water sources as defined by World Health Organization/UNICEF Joint monitoring programme¹ include protected springs, public standpipes, water piped into dwelling/yard, boreholes, protected wells and rain water collection. In Rwanda like in other country, we have different sources of drinking water. However this report shows the statistics of only water supplied by Electricity Water and Sanitation Authority (EWSA). Total numbers of water subscribers were 122,890 as of September 2013.

In sanitation we have cleaning companies and solid waste collection and transportation companies. The licensed cleaning companies as of September were 19 and the solid waste collection and transportation companies were 6.
